PROFILE

I have been teaching programming online at Kodland, an international coding school, since November 2022: 39 classes as a teacher and over 100 as technical support, including onboarding new support colleagues. Outside Kodland I train company staff on digital tools, prepare candidates for public exams and teach technology to older adults.

At the same time I write software that runs in production: I am head of web and development at a digital agency and have worked as a freelance developer since 2018. I bring real cases into the classroom, not textbook exercises, and I can explain the same idea to a twelve-year-old and to a business owner. I am looking for teaching roles in corporate training, coding schools and courses for young people and adults.

TEACHING EXPERIENCE

Coding Teacher and Technical Support

November 2022 - present

Kodland, international online coding school

- 39 classes taught: Scratch for the youngest, then Python and Lua, with students aged 8 to 18 and projects that actually work.
- Over 100 classes followed as technical support, the role that now takes most of my time at Kodland.
- Onboarding of several new colleagues joining technical support: tools, procedures, typical cases.
- Guidance and progress tracking for each student; managing remote classes with mixed levels in the same group.

Head of Web and Development, Full Stack Developer

2025 - present

Abruzzo Digitale, Giulianova, Italy

- Training the agency staff on new technologies and on the tools we introduce into daily work.

OTHER TRAINING EXPERIENCE

Corporate: training on digital tools, including Canva, for the staff of a Tecnocasa real estate agency in San Nicolò a Tordino, Italy

In my agency: at Abruzzo Digitale I train the staff on new technologies and on the tools we bring into daily work

Exam preparation: a complete IT course for a candidate in the Italian Postal Police public exam

Older adults: one-to-one lessons on using phones, computers and online services independently

Clients: I teach every client to use the tools I deliver, so they can manage them on their own

WHAT I CAN TEACH

Programming: Scratch, Python (from zero to automation and data analysis), Lua, JavaScript, database basics and SQL

Web development: HTML and CSS, WordPress and Elementor for people who run their own site, React for those who want to do it for a living

Artificial intelligence: Claude, ChatGPT and AI agents in everyday work: writing, summarising, searching your own documents, automating part of a process, and knowing where they go wrong

Office tools: Canva, Word, Excel, PowerPoint, email and document management

Basic digital skills: files and folders, digital signatures and online public services, safety and spotting scams; IT for public exams

DEVELOPMENT EXPERIENCE

Head of Web and Development, Full Stack Developer

2025 - present

Abruzzo Digitale, Giulianova, Italy

- Head of web and development: client websites, server work, custom integrations.
- Designed and built GNAMMM, a SaaS platform for restaurants with 10 services in production and 19 live restaurants.

Full Stack Developer 2023 - present
Datarockers, contract collaboration

- Web apps built to order for different companies: in some projects from analysis to launch, in others only the front end.

Freelance Software and Web Developer (OrionDev) 2018 - present
Remote and in Abruzzo, Italy

- I wrote my first piece of software at fifteen. Since then: websites, e-commerce, management systems and desktop software for Italian and international clients, including more than 10 projects completed on Fiverr.

CLASSROOM SKILLS

Teaching: online and in-person lessons, mixed-level groups, hands-on projects instead of abstract exercises, progress tracking

Communication: explaining technical concepts to non-specialists with examples from their own work; patience with complete beginners

Technical: Python, JavaScript, PHP, SQL, WordPress, React, Google Cloud, language models in production

EDUCATION

High school diploma, Scientific Lyceum (applied sciences track) 2017 - 2022
Liceo Statale Saffo, Roseto degli Abruzzi, Italy

LANGUAGES

Italian: native. English: B2 (upper intermediate), used daily for technical documentation and with international clients.

ADDITIONAL INFORMATION

Driving licence (A1, A2, AM, B). Registered freelancer with an Italian VAT number. Available for travel, on-site or remote work.
